

tensorflow::serving
::FileProbingEnv

```
graph BT; A["tensorflow::serving::test_util::MockFileProbingEnv"] --> B["tensorflow::serving::FileProbingEnv"]
```

The diagram illustrates an inheritance relationship between two classes. At the bottom is a gray-shaded box representing the base class, `tensorflow::serving::test_util::MockFileProbingEnv`. A blue arrow points upwards from this box to a white box at the top, which represents the derived class, `tensorflow::serving::FileProbingEnv`.
